## 5. FIRE-FIGHTING MEASURES

### Fire/Explosion Hazard

If safe to do so, move undamaged containers from fire area.

**HAZARDOUS DECOMPOSITION PRODUCTS:** Decomposes on heating emitting toxic and/or irritating fumes including carbon dioxide and carbon monoxide.

**FIRE FIGHTING PROCEDURES:** Fire fighters to wear Self-contained breathing apparatus (SCBA) in confined spaces, in oxygen deficient atmospheres or if exposed to products of decomposition. Full protective clothing is also recommended. Evacuate area and keep personnel upwind.

**EXTINGUISHING MEDIA:** Use alcohol foam, dry chemical or carbon dioxide to extinguish fire. Use water spray to cool fire-exposed containers.

**HAZCHEM CODE:** None allocated [Aust]

### FLAMMABILITY

This product is not flammable.

## 6. ACCIDENTAL RELEASE MEASURES

Material may be slippery when spilt. Walk cautiously. Wear protective equipment to prevent skin and eye contact, as outlined under personal protection in this MSDS. Bund area using sand or soil - to prevent run off into drains and waterways. Use absorbent (soil, sand, vermiculite or other inert material). Collect and seal in properly labelled metal containers for disposal. Flush spill area with water.

## 7. HANDLING AND STORAGE

Keep away from heat, sparks, and flames. Store in a cool, dry place and out of direct sunlight. Do not store with powerful inorganic oxidants, such as nitric acid or hydrogen peroxide. Keep containers tightly closed. Do not eat, drink or smoke in the workplace.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### Exposure Standards

No exposure standards have been assigned by [NOHSC] for this product or any of the components.

### Engineering Controls

Maintain adequate ventilation at all times. In most circumstances natural ventilation systems are adequate unless the material is heated, reacted or otherwise changed in some type of chemical reaction, then the use of a local exhaust ventilation system is recommended. If exhaust ventilation is not available or inadequate, use approved respirator to Australian Standards.

### Personal Protection Equipment

**CLOTHING:** Wear suitable protective clothing to prevent skin contact.

**GLOVES:** Wear suitable protective gloves to prevent skin contact - PVC or natural rubber.

**EYES:** Wear safety glasses with side shields, chemical goggles or face shield to protect eyes.

**RESPIRATORY PROTECTION:** When respiratory protection is required, select and use respirators in accordance with AS/NZS 1715/1716. The use of a respirator for organic vapours with (disposable) or with replaceable filters is recommended. Filter capacity and respirator type depends on exposure levels and type of contaminant. If entering spaces where the airborne concentration of a contaminant is unknown then the use of a Self-contained breathing apparatus (SCBA) with positive pressure air supply complying with AS/NZS 1715 / 1716, or any other acceptable International Standard is recommended.
