

## Era Polymers Cold Castable Polyurethanes includes Eracast RT - A UV Stable Range of Cold Castable Polyurethanes

*Excellence in Polyurethane Chemistry*

**ERA POLYMERS** RANGE OF **COLD CASTABLE** PRODUCTS ARE AVAILABLE IN BOTH **TDI** AND **MDI** BASED SYSTEMS WITH VARYING HARDNESSES AND CHARACTERISTICS TO SUIT ALMOST ANY APPLICATION.

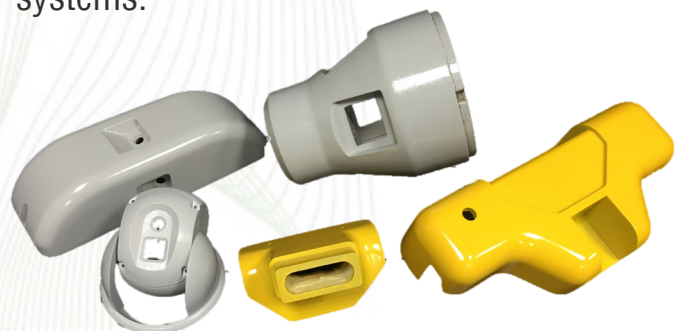

**Eracast RT, Era Polymers UV Stable Cold Castable** range are ideal for applications where UV stability is paramount.

**Era Polymers** cold castable systems are relatively simple to process; these two component systems allow processing at room temperature and can be hand mixed or dispensed through a plural component machine.

**Applications include but not restricted to:**

- Concrete Moulding
- Shock & Sound Dampening Pads
- Washers
- Gaskets
- General Moulds
- Electrical Insulation

Even intricate designs with complex shapes are easily achieved using the **Era Polymers** range of cold castable systems.
